Engaging Science Experiments

This is not a daycare drop-off. It's a blast-a-minute discovery expedition for kids of all ages. Aquanauts (ages 3-5 years) can conduct experiments and become certified Jr. Adventure Scientists. Our Explorers (ages 6-8 years) experience exciting cruise activities, like themed parties and more. Voyagers (ages 9-11 years) explore a range of fun that puts the "cool" back into learning. Plus, our Royal Babies (ages 6-18 months) and Royal Tots (ages 18-36 months) programs offer our tiniest guests and their parents interactive classes developed by early childhood experts. This is Adventure Ocean® — only on Royal Caribbean®.
